FQHCmd Philosophy and Methodology

Why FQHCmd? The answer is simple. Our methods are proven and tested in the real world. Our team is comprised of individuals with experience in all aspects of FQHC development, implementation and assessment. We have a current CEO of a very successful FQHC that has consulted for the Federal Government over the past 10 years with another member of our team sitting on the board of a health center gaining FQHC status. All of our team continues working in the real world giving you real world experience and proven techniques.

Whether it is working with your health center to gain FQHC or FQHC Look Alike status, expanding your health center services, looking to buy or restructure an already existing clinic or finding physicians for your health center, we not only provide the tools and knowledge that you need, we show you real world results.

We become part of your team. We deal with real world solutions to real world problems and are available to our clients even after business hours. We charge on a project basis, not an hourly rate and we focus on results. FQHCmd is your partner helping to bring quality healthcare to your neighborhoods.
